

UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE FIRST QUARTER ENDED MAY 31, 2022 and 2021 (Expressed in Canadian dollars)

NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim financial statements in accordance with standards established by the Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

1. General information and nature of operations

Voyager Metals Inc. ("**Voyager Metals**" or the "**Company**") was incorporated on February 27, 2007 pursuant to the *Business Corporations Act* (Ontario) and was classified as engaged in the exploration of its properties for base metals and precious metals in Canada. All mineral property interests held are currently in the exploration stage.

The Company listed its common shares on the TSX Venture Exchange for trading upon the completion of its initial public offering ("IPO") as disclosed in a prospectus filed with the regulators and dated May 25, 2007. The Company's shares are listed under the symbol VONE on the TSX Venture Exchange.

These financial statements of the Company were authorized for issue in accordance with a resolution of the directors on July 20, 2022.

2. Going concern disclosure

The Company's principal assets are mining claims and deferred exploration costs relating to properties which are not in commercial projects. The Company is in the process of exploring its mining claims and has not yet determined whether or not the properties will contain economically recoverable reserves.

Voyager Metals is not currently generating any revenue from its operations and for the first quarter ended May 31, 2022, the Company recorded a net comprehensive loss of \$1,308,538 (November 30, 2020 - \$70,530) and an accumulated deficit of \$10,864,993 (February 28, 2021 - \$9,556,455). Its ability to continue as a going concern is uncertain and is dependent upon its ability to fund its working capital, complete the development of its exploration projects, and eventually to generate positive cash flows from operations. Management plans to explore all alternatives possible, including joint ventures, debt and equity financings, and merger opportunities. Even if the Company has been successful in the past in doing so, there can be no assurance that additional debt or equity financing will be available to meet these requirements or available on terms acceptable to the Company. These matters represent a material uncertainty that casts significant doubt about the Company's ability to continue as a going concern.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and financial statement classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

3. Basis of preparation

(a) Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting ("IAS 34"), as issued by the International Accounting Standards board ("IASB"). These condensed interim financial statements do not contain all the required annual disclosures and should be read in conjunction with the annual consolidated financial statements of the Company as at and for the year ended February 28, 2022.

The Condensed Interim Financial Statements have been prepared on a historical cost basis except for financial instruments, as set out in the accounting policies in Note 4 of the 2022 annual financial statements.

These financial statements were approved for issuance by the Board of Directors on July 20, 2022.

(b) Functional and presentation currency

The functional and presentation currency of Voyager Metals Inc. is the Canadian dollar.

In the preparation of these financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the year. Actual results could differ from these estimates. This uncertainty impacts judgements made by the Company.

(c) Reclassifications

Marketing and promotion expenses in the prior period have been reclassified to be presented by nature to conform to the current period presentation.

4. Summary of significant accounting policies

See annual financial statements for the years ended February 28, 2022 and February 28, 2021 for a list of accounting policies used by the Company.

5. Summary of accounting estimates and judgements

The preparation of the financial statements in conformity with IFRS requires management to make estimates and judgements that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including on historical experience and expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates and assumptions. The estimates and judgments that, in management's opinion, have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are disclosed in the annual audited financial statements.

See annual financial statements for the years ended February 28, 2022 and February 28, 2021 for a list of accounting estimates and judgements considered significant by management.

6. Accounting pronouncements

Standards and amendments issued but not yet effective or adopted

IAS 16, Property, Plant and Equipment ("IAS 16")

The IASB issued an amendment to IAS 16, Property, Plant and Equipment to prohibit the deducting from property, plant and equipment amounts received from selling items produced while preparing an asset for its intended use. Instead, sales proceeds and its related costs must be recognized in profit or loss. The amendment will require companies to distinguish between costs associated with producing and selling items before the item of property, plant and equipment is available for use and costs

associated with making the item of property, plant and equipment available for its intended use. The amendment is effective for annual periods beginning on or after January 1, 2022, with earlier application permitted. The extent of the impact of adoption of this standard has not yet been determined.

IAS 1 – Presentation of Financial Statements ("IAS 1")

IAS 1 was amended in January 2020 to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company's right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument. The amendments are effective for annual periods beginning on March 1, 2023.

IAS 37 - Provisions, Contingent Liabilities, and Contingent Assets ("IAS 37")

IAS 37 was amended. The amendments clarify that when assessing if a contract is onerous, the cost of fulfilling the contract includes all costs that relate directly to the contract – i.e. a full-cost approach. Such costs include both the incremental costs of the contract (i.e. costs a company would avoid if it did not have the contract) and an allocation of other direct costs incurred on activities required to fulfill the contract –e.g. contract management and supervision, or depreciation of equipment used in fulfilling the contract. The amendments are effective for annual periods beginning on March 1, 2022.

7. Cash and cash equivalents

Cash and cash equivalents were as follows:

	May 31, 2022	February 28, 2022
Cash Canadian Banks	\$ 256,867	\$ 991,787

8. Receivables and other

	May 3	1, 2022	Febru	iary 28, 2022
Current				
Sales tax receivables	\$ 1	30,255	\$	189,713
Prepaids and deposits	1	03,776		106,403
	\$ 2	34,031	\$	296,116

Sales tax receivables relate to refundable Harmonized Sales Tax ("HST") in Canada.

9. Investment in marketable securities

The following table summarizes the changes in investment in marketable securities:

	marketa	Investment in able securities
Balance - February 28, 2022	\$	190,223
Unrealized fair value (loss)		(18,550)
Balance - May 31, 2022	\$	171,673

The Company acquired various investments of shares in publicly traded entities valued at \$217,560. The change in fair value for the acquired securities recognized during the first quarter ended May 31, 2022 was calculated for the period from the acquisition date to May 31, 2022 and is included in finance expense (note 16). The fair value was determined using the market value on May 31, 2022. The fair value adjustment resulted in an unrealized loss of \$18,550 for the first quarter ended May 31, 2022 (February 28, 2022 – \$27,338).

10. Property, Plant and Equipment

The following is a summary of the carrying value of property, plant and equipment ("PP&E"):

	Propert	y, Plant and	Rig	ght-of-use	
	•	Equipment		Assets	Total
Cost

Additions		-		9,134	\$ 9,134
Closing balance, May 31, 2022		19,320		541,728	561,048
Accumulated depreciation and amortization					
Opening balance, February 28, 2022		19,320		24,853	\$ 44,173
Charge for the period		-		22,212	\$ 22,212
Closing balance, May 31, 2022	\$	19,320	\$	47,065	\$ 66,385
Net book value					
Balance, February 28, 2022		-		507,741	\$ 507,741
Balance, May 31, 2022	\$	-	\$	494,663	\$ 494,663

Right-of-use assets relate to leased office space premises (see notes 13 and 17).

11. Exploration and evaluation assets

The following is a summary of the Company's investment in exploration properties:

	Mont Sorcier
	Quebec
Balance, February 28, 2021	\$ 3,859,574
Acquisition costs	
Cash paid for additional claims	250,000
Shares issued for additional claims	105,000
Exploration and evaluation expenditures	
Exploration costs	4,230,757
Balance, February 28, 2022	\$ 8,445,331
Acquisition costs	
Advance royalty payment	30,000
Exploration and evaluation expenditures	
Exploration costs	410,908
Balance, May 31, 2022	\$ 8,886,239

Mont Sorcier, Iron Ore and Vanadium Project, Quebec:

In October 2016, the Company agreed to acquire a 100% interest in the Mont Sorcier Iron Ore and Vanadium property ("Mont Sorcier") located near Chibougamau in Quebec, Canada. The Company paid \$150,000 in cash and issued 2,750,000 common shares at \$0.175. In order to earn its interest, the Company undertook a minimum of \$1 million in exploration expenditures on the property within in the first 24 months following signature of the agreement. The Vendor, Chibougamau Independent Mines, will retain a 2% Gross Metal Royalty ("GMR") on all mineral production from the property. In order to facilitate the deal, Globex Mining Enterprises Inc. (GMX-TSX), which held a 3% GMR on a number of claims, has reduced its royalty to 1% GMR but it has been extended to the recently enlarged claim group. In addition, a finder's fee of 300,000 post-consolidation common shares of the Company at \$0.175 was issued in relation to the acquisition. During fiscal year ended February 28, 2019, the Company spent the required funds and earned a 100% interest in the claims subject to the 1%, plus 2%, GMR. Under the provisions of the agreement, if the project is not placed into commercial production by the 5th anniversary of the effective date, the Company will pay the Vendor an advance royalty payment of \$30,000 per year commencing on the 5th anniversary of the signing of the

agreement. Any advance royalty payment will be deducted from future GMR payments starting in the first year that the GMR becomes payable and continuing until all advance royalty payments have been recovered by the Company. As at May 31, 2022, which is over 5 years following the effective date of the agreement, the project has not been placed into commercial production. An amount payable of \$30,000 is recognized in respect of this provision as at May 31, 2022, which was paid subsequent to the guarter end.

On December 8, 2021, the Company entered into an option agreement to acquire 24 additional claims ("Claims") in the Chibougamau area that are located adjacent to its claims containing the Mont Sorcier iron and vanadium project. The terms of the agreement provide for an immediate payment of \$250,000 in cash, plus 500,000 common shares of the Company paid to the vendor at closing valued at \$105,000, at which time the Claims were transferred to the Company. In order to complete the option, the Company is required to pay the following additional consideration in cash - from years 5 to 10 an additional \$200,000 per year for a total of \$1,000,000. Upon completion of the option agreement, the vendor would be granted a 3% net smelter royalty applicable only to the Claims subject to the agreement, subject to the option of the Company to buy back 1% of the NSR for \$1,000,000. In the event that no project has commenced development at Mont Sorcier or the Company fails to make one or more of the required payments, the Claims would revert back to the vendor.

12. Accounts payable and accrued liabilities

Accounts payable and accrued liabilities were comprised of the following balances:

	May 31, 2022	February 28, 2022
Accounts payable	\$ 785,873	\$ 744,937
Accrued liabilities	470,838	419,968
	\$ 1,256,711	\$ 1,164,905

Accounts payable and accrued liabilities includes an amount of \$70,392, as at May 31, 2022 (February 28, 2022 - \$97,312) due to related parties (see note 17).

13. Lease Obligations

	May 31, 2022	February 28, 2022
Total minimum lease payments	\$ 609,798 \$	658,910
Effect of discounting	\$ (127,163) \$	(132,088)
Present value of minimum lease payments	482,635	526,822
Balance owing at year end	482,635	526,822
Less: current portion	(106,593)	-
Non-current portion of lease obligations	376,042	526,822
Minimum payments under leases		
Due no later than 1 year	\$ 115,457 \$	119,232
Due later than 1 year less than 5 years	494,341 \$	539,678
	\$ 609,798 \$	658,910

The Company's lease obligations are related primarily to a lease of office premises, with payments made on a monthly basis. The Company sub-leases the office space from a company with directors and officers in common (see note 17).

14. Debentures

On May 31, 2021, the Company closed a \$3.9 million non-brokered private placement of non-convertible debentures to accelerate the development of its Mont Sorcier project. Pursuant to the private placement, the Company issued 3,900 debenture units (each, a "Unit") at a price of \$1,000 per Unit for an aggregate principal of \$3,900,000. Each Unit consists of \$1,000 principal amount of 10% secured debentures ("Debentures") and 2,380 non-transferable common share purchase warrants ("Debenture Warrants"), for an aggregate total of 9,282,000 Debenture Warrants. Each Debenture Warrant entitles the holder to acquire one common share of the Company ("Common Share") at an exercise price of \$0.42 per Common Share for a period of 36 months. The Debentures bear interest at a rate of 10.0% per annum and will mature 18 months from the date of issuance. The Debentures also include an early repayment option (the "Prepayment Option") which provides for the early repayment of all or part of the outstanding principal and accrued interest, for a total price of \$1,050 per unit. This repayment option represents an embedded derivative which was identified not to be separate from the debenture as it is closely related to the host debt contract.

The Company has also paid an arm's-length finder a cash fee of \$273,000 and issued to the finder 925,424 non-transferable common share purchase warrants (each a "Finder Warrant"). Each Finder Warrant will entitle the holder to acquire one Common Share at a price of \$0.295 per Common Share for a period of 36 months. The Finder Warrants were valued at \$185,085 using the Black-Scholes option pricing model (see note 15).

At inception, the debt portion of the debentures was recorded at the estimated fair value of \$2,557,361 plus transaction costs directly attributable to its issuance, using an effective interest rate of 20% per annum at the time of issuance with the residual value of \$884,554 recorded as reserves for the warrants issued. The transaction costs noted above were proportionately allocated between the financial liability and equity component of the debenture.

The changes in obligation related to the debentures are summarized below:

	Debentures
Balance - February 28, 2022	\$ 3,191,422
Accretion expense	227,369
Balance - May 31, 2022	\$ 3,418,791

The Company recorded interest expense of \$98,301 for the first quarter ended May 31, 2022. Accretion costs of \$227,369 were recognized in finance expense for the first quarter ended May 31, 2022.

Contractual undiscounted debt repayments related to the debentures are summarized below:

	Payments due by period				
	< 1 years	1-5 years	5> years	Total	
Repayment of debentures	3,900,000	-	-	3,900,000	
Interest on debentures	390,000	-	-	390,000	
Debenture repayments	4,290,000	-	-	4,290,000	

15. Shareholders' Equity

(i) Share capital

Authorized and issued: The Company is authorized to issue an unlimited number of common shares. The issued and outstanding common shares are as follows:

	Note	Number of shares	Issued Share Capital

(a) On May 27, 2021, the Company completed the private placement of an aggregate 4,705,880 Flow-Through Common Share Units ("FT Units") at a price of \$0.425 per FT Unit for gross proceeds of \$2,000,000. Each FT Unit is comprised of one common share plus one-half warrant. Each full warrant entitles its holder to purchase one additional common share at an exercise price of \$0.425 for a period of 24 months from the closing date of the private placement. A cash commission of \$120,000 was incurred as unit issuance costs, and 282,352 finder warrants. Each finder warrant entitles the holder to purchase one additional common share at an exercise price of \$0.425 for a period of 24 months from the closing date of the private placement.

The Company recognized a premium on the issuance of Flow-Through shares in the year 2021 in the amount of \$470,588 and set up a corresponding liability for this amount. As funds have been expended in the year this liability has been reversed and offset against deferred income tax. As at February 28, 2022 the balance of this liability was \$Nil.

(b) During the year ended February 28, 2022, a total of 3,225,000 stock options with an average exercise price of \$0.12 were exercised into 3,225,000 common shares for gross proceeds of \$365,375. Also, a total of 4,389,071 warrants with an average exercise price of \$0.11 were exercised into 4,389,071 common shares for gross proceeds of \$496,295.

(ii) Stock options

The Company's Stock Option Plan ("the "**Plan**") provides for the issuance of a maximum of 10% of the issued and outstanding common shares at an exercise price equal to or greater than the market price of the Company's common shares on the date of the grant to directors, officers, employees and consultants to the Company. The option period for options granted under the Plan is for a maximum period of 5 years. Options granted may vest over certain time periods within the option period, which will limit the number of options that may be exercised. All options are being issued under the terms of the Company's Stock Option Plan which was approved by shareholders at the Company's Annual General and Special Meeting on June 23, 2022. Each stock option is exercisable into one common share of the Company at the price specified in the terms of the option.

On July 28, 2021, the Company granted 1,900,000 stock options to management, directors, advisors, employees and consultants. Each stock option fully vested on issuance and is exercisable at a price of \$0.22 per common share for a period of two years. The fair value of the stock options was determined to be \$247,000 using the Black-Scholes Option Pricing Model using the following assumptions: risk-free rate of 0.38%, expected life of 2 years, volatility factor of 115% and dividend yield of Nil.

On October 6, 2021, the Company granted 250,000 stock options to an employee of the Company. Each stock option granted fully vested on issuance and is exercisable immediately at a price of \$0.12 per common share for a period of two years. The fair

value of the stock options was determined to be \$17,500 using the Black-Scholes Option Pricing Model using the following assumptions: risk-free rate of 0.52%, expected life of 2 years, volatility factor of 113% and dividend yield of Nil.

On November 22, 2021, the Company granted 675,000 stock options to employees of the Company. Each stock option granted fully granted on issuance and is exercisable immediately at a price of \$0.135 per common share for a period of two years. The fair value of the stock options was determined to be \$54,000 using the Black-Scholes Option Pricing Model using the following assumptions: risk-free rate of 1.05%, expected life of 2 years, volatility factor of 112% and dividend yield of Nil.

Stock option transactions are summarized as follows:

	Note	May 31, 2	2022	February 28, 2022		
		Number of	Weighted average	Number of	Weighted average	
		options	exercise price	options	exercise price	
Balance at beginning of year		5,400,000	\$0.18	6,800,000	\$0.14	
Granted during the period		-	\$0.00	2,825,000	\$0.19	
Exercised during the period		(750,000)	\$0.15	(3,225,000)	\$0.12	
Expired during the period		(250,000)	\$0.15	(1,000,000)	\$0.13	
Balance at end of year		4,400,000	\$0.19	5,400,000	\$0.18	

As at May 31, 2022 stock options issued and outstanding are as follows:

	Number outstanding	Weighted average remaining contractual	
Exercise Price (\$)	and exercisable	life (years)	Expiry
\$0.10	400,000	0.06	June 23, 2022
\$0.19	200,000	0.63	January 15, 2023
\$0.19	1,400,000	0.68	February 2, 2023
\$0.22	1,900,000	1.16	July 28, 2023
\$0.12	250,000	1.35	October 5, 2023
\$0.14	250,000	1.48	November 22, 2023
\$0.19	4,400,000	0.91	

(iii) Warrants

Warrant transactions are summarized as follows:

	Note	May 31,	2022	February 28, 2022		
		Number of	Weighted average	Number of	Weighted average	
		warrants	exercise price	warrants	exercise price	
Balance at beginning of the year		23,392,716	\$0.29	16,249,071	\$0.13	
Warrants issued		-	-	12,842,716	\$0.41	
Warrants exercised		-	-	(4,389,071)	\$0.10	
Warrants expired		-	-	(1,310,000)	\$0.11	
Balance at end of the year		23,392,716	\$0.29	23,392,716	\$0.29	

As at May 31, 2022, the outstanding share purchase warrants are as follows:

	Number outstanding	Weighted average remaining contractu	
Exercise price	and exercisable	life (years)	Expiry
\$0.15	4,550,000	0.21	August 14, 2022

\$0.30	925,424	2.00	May 31, 2024
\$0.29	23,392,716	1.08	

16. Finance Expense

	Note	May 31, 2022	May 31, 2021
Accretion of debentures	14	\$ 227,359	\$ -
Interest on debentures	14	98,301	-
Lease Interest expense	13	897	-
Finance Expense		\$ 326,558	\$ -

17. Related Party Transactions

The Company's related parties include its key management and their close family members, and others as described below. Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash. In addition to share issuances, transactions with related parties were as follows:

Transactions during the period ended,	Ма	y 31, 2022	Febr	uary 28, 2022
Management fees to companies controlled by officers	\$	75,750	\$	252,125
Management fees to officers		127,000		267,667
Expenses reimbursable to a company controlled by an officer		470		34,637
Expenses reimbursable to an officer		-		2,788
Share based payments to officers and directors		-		206,750
Geological fees and expenses to a director or officer, charged to mineral properties		16,555		116,165
hared services reimbursable to a related company		62,295		151,604
	\$	282,070	\$	1,031,736

Amounts due from and to the related parties, are a result of transactions with entities controlled by shareholders, officers or directors of the Company. These amounts are non-interest bearing, unsecured and not subject to specific terms of repayment unless stated.

Amounts payable to related parties included in the accounts payable and accrued liabilities were as follows:

Outstanding balances owing to related parties as at,	Ма	y 31, 2022	Febru	ary 28, 2022
Management fees payable to officers	\$	2,500	\$	2,500
Expenses reimbursable to an officer		22		63
Amounts payable to a director or officer for geological fees and expenses		5,575		8,468
Amounts payable to a related company for shared services		62,295		83,129
	\$	70,392	\$	97,312

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company. These amounts include amounts paid or accrued to the Chairman, CEO, COO and CFO of the Company.

Paid to Key Management Personnel	Ма	y 31, 2022	Februar	y 28, 2022
Management fees	\$	181,031	\$	549,867
Share-based payments		-		206,750

In addition to the transactions detailed elsewhere in profit or loss, the Company shares administrative services and office space with Cerrado Gold Inc. ("Cerrado"), a company related by virtue of common directors and officers, and from time to time will incur third party costs on behalf of related parties. Related party transactions are recognized at the amounts agreed between the parties. Outstanding balances are due on demand, unsecured and settlement occurs in cash.

18. Capital Management and Liquidity

The Company considers its capital structure to consist of its equity, comprised of common shares, reserves (stock options and warrants), and accumulated deficit. The Company manages its capital structure and makes adjustments to it, in order to have the funds available to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSX Venture Exchange ("TSX-V") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of six months. As of February 28, 2022, the Company is not in compliance with this requirement. Any potential response from the TSX-V to this deficiency is unknown at the present time. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the first quarter ended May 31, 2022 and the year ended February 28, 2022. The Company's capital for the reporting periods is summarized as follows:

	May 31, 2022	February 28, 2022
Share capital	\$ 13,360,921 \$	13,167,127
Reserves	4,193,744	4,275,038
Deficit	(12,731,891)	(11,936,166)
	\$ 4,822,774 \$	5,505,999

19. Financial Instruments

Financial Instruments details can be summarized as follows:

		May 31	, 202	2	February 28, 2022		
	Note	Carrying Value		Fair Value	Carrying Value		Fair Value
Financial Assets							
Amortised cost							
Cash and cash equivalents	(i)	\$ 256,867	\$	256,867	\$ 991,787	\$	991,787
Receivables and other	(i)(ii)	234,031		234,031	296,116		296,116
Fair value through profit or loss							
Investment in marketable securities	(iii)	171,673		171,673	190,223		190,223
Total financial assets		662,571		662,571	1,478,126		1,478,126
Financial Liabilities							
Accounts payable and accrued liabilities	(i)(ii)	\$ 1,256,711	\$	1,256,711	\$ 1,164,905	\$	1,164,905
Interest payable on debenture	(i)(ii)	98,301		98,301	96,164		96,164
Debentures	(iv)	3,418,781		3,418,781	3,191,422		3,191,422
Total financial liabilities		4,773,793		4,773,793	4,452,491		4,452,491
Net financial assets (liabilities)		\$ (4,111,222)	\$	(4,111,222)	\$ (2,974,365)	\$	(2,974,365)

(i) Cash, and trade and other payables are recorded at carrying value, which approximates fair value due to their shortterm nature and generally negligible credit losses.

(ii) Excludes tax and other statutory amounts.

- (iii) Investments are carried at their fair value, which is determined using quoted market bid prices in active markets for listed entities.
- (iv) Debentures are measured at amortized cost. The fair value of debentures is primarily measured using determined variables, and therefore was classified within Level 2 of the fair value hierarchy. See note 14.

Fair value hierarchy

The Company's financial assets and liabilities are recorded and measured as follows:

- (a) The fair values for cash, trade and other receivables, due from related parties, investment in marketable securities, trade and other payables, approximate carrying values due to the immediate or short-term maturities of these financial instruments and are classified as Level 1 in accordance with their fair value hierarchy.
- (b) Debentures are classified as Level 2 in accordance with their fair value hierarchy.

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels of the date of the event or change in circumstances that caused the transfer. During the year ended February 28, 2022 and 2021 the Company did not make any transfers.

20. Financial Risk Management

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, market risk and interest rate risk.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its obligations. The Company is not exposed to credit risk due to the nature of the collectible accounts. As at February 28, 2022 and February 28, 2021, the Company does not have any allowance for doubtful accounts. Management actively monitors the Company's exposure to credit risk under its financial instruments, including with respect to amounts receivable. The Company

considers the risk of loss for its amounts receivable to be remote and significantly mitigated due to the financial strength of the party from whom the receivables are due - the Canadian government for harmonized sales tax ("HST") refunds receivable and the Quebec government for Quebec sales tax (QST) refunds receivable.

(b) Liquidity risk

Liquidity risk is the risk that the Company cannot meet its financial obligations associated with financial liabilities in full. The Company's primary sources of liquidity are debt and equity financing, which are used to finance working capital and capital expenditure requirements, and to meet the Company's financial obligations associated with financial liabilities. Additional sources of liquidity are used to fund additional operating and other expenses and retire debt obligations at their maturity. In addition to maintaining a working capital surplus, the Company's approach to managing liquidity risk is to ensure that it will have sufficient cash to meet liabilities when due. The Company's financial liabilities have contractual maturities of one to two years and are subject to normal trade and contractual terms. The Company's ability to continue operations and fund its business is dependent on management's ability to secure additional financing. It is anticipated that the Company will continue to rely on equity financing to meet its ongoing working capital requirements. At year end the Company has a working capital deficiency of \$3,086,582 and as such liquidity risk should be considered high.

(c) Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, commodity prices, and interest rates will affect the Company's net income or the value of financial instruments. These risks are generally outside the control of the Company. The objectives of the Company are to mitigate market risk exposure within acceptable limits, while maximizing returns. The Company has no significant exposure to market risk.

(d) Interest rate sensitivity

The Company has no significant exposure during the first quarter ended May 31, 2022 and 2021 and the year ended February 28, 2022 to interest rate risk through its financial instruments as the interest on the debenture is a fixed rate.

21. Commitments and contingencies

From time to time, the Company may be exposed to claims and legal actions in the normal course of business, some of which may be initiated by the Company.

On January 9, 2019, the Company fulfilled its \$1,000,000 financial commitment for exploration expenditures to Chibougamau Independent Mines Inc. (CIM) in accordance with the "Option to Purchase Agreement" dated September 29, 2016 and amended on October 14, 2016. As a result, the Company acquired title to 100% of all 37 claims of the Mont Sorcier Iron Ore and Vanadium Project.

As at May 31, 2022 the Company's management is not aware of any other commitments and/or contingencies.

22. Segment information

The Company operates in one business segment being iron ore exploration in Canada. As the Company is focused on exploration, the Board monitors the Company based on actual versus budgeted exploration expenditure incurred by project. The internal reporting framework is the most relevant to assist the Board with making decisions regarding this Company and its ongoing exploration activities, while also taking into consideration the results of exploration work that has been performed to date.
